During New Year celebrations in many countries, people often enjoy (14) \_\_\_\_\_ at midnight. Cities and towns are beautifully (15) \_\_\_\_\_, with lights and flowers to welcome the new year.

- **Reading 2: Read the passage and do the tasks below (1.0 pt)**

Energy is one of the most basic parts of our universe. The word “energy” comes from the Greek word “energia”, meaning “at work.” Thus, energy means “the ability to do work”. We use energy in everything. It lights and warms our homes, offices, streets, etc. It also cooks our food, plays our music, washes our clothes, and gives us pictures on the television. Household chores become easy with energy. You can visit your favourite places with energy, too. Our vehicles, trains, planes, and rockets are powered by energy. It also powers machines in factories and tractors on a farm.

Our main source of energy is the sun. The sun gives us light during the day. It dries our clothes when they’re hanging outside on a clothesline. It helps plants grow. When animals eat the plants, the energy is transferred to their bodies, so they are able to move and do work. Our bodies change the stored energy of the food into the energy to do work. We use this energy for walking, running, reading, etc. How important energy is!

- a) Decide whether the statements are true (T) or false (F) (0.4 pts).**

| STATEMENTS   | T | F |
|--|---|---|
| 16. Energy is one of the most basic parts of our universe. |   |   |
| 17. Our main source of energy is the sun.                  |   |   |

- b) Answer the questions (0.6 pts)**

18. What does the word “energy” mean?

→ \_\_\_\_\_

**HỌC SINH KHÔNG ĐƯỢC VIẾT VÀO TRANG NÀY,
